

Beautiful 19th century Mansion in Manacor

This grand 19th century estate offers many options with its approximately 2,500 m² of living space. Besides the own use of the house it could also be transformed into an exclusive hotel, for example. Currently the estate offers ten bedrooms and nine bathrooms, several living rooms, dining areas and kitchens. In addition to the mansion, there is another large guest house and an old barn which is in need of renovation. A pool is available. Plans for the redevelopment of the property are already available.

This grand estate is located on approx. 700.000 m² of land between Manacor and the town of Sant Llorenç. Additional 600.000 m² can be purchased optionally – these are currently leased for hunting. The property is absolutely quiet and discreet, and offers beautiful views over the surrounding countryside. Despite the quiet location it is just a short way to the beaches and coves of the north-east, such as the Colonia de Sant Pere, or to the excellent golf courses. The airport and the city of Palma are about 30 minutes away by car.
